

## Investment Objective and Strategy

3D Targeted Outcome: 3D Targeted Outcome seeks to deliver returns commensurate with the broad U.S. equity market but within a targeted band of returns using exchange-traded funds (“ETFs”). The strategy’s investment objective is to generate a superior risk-adjusted rate of return commensurate with an investment strategy that dynamically adjusts the underlying equity market risk based on prevailing market conditions. The portfolio is structured to offer participation in general equity market risk but with capped upside and downside participation depending on the underlying portfolio structure. The strategy benchmark is a 50%/50% blend of the S&P 500 Index (Total Return) and ICE/BAML 3-Month Treasury Bill Index.

## Investor Profile

Designed for investors with a conservative risk tolerance who seek to experience lower account volatility with an investment time horizon of five years.

Risk Rating: Balanced Allocation

## Portfolio Performance<sup>1</sup>

	Qtr	YTD	1 Yr	3 Yr	5 Yr	10 Yr	Inception
Targeted Outcome (Net)	-9.76%	-12.05%	-8.34%	-	-	-	15.62%
Targeted Outcome (Gross)	-9.39%	-11.34%	-6.86%	-	-	-	16.79%
50% S&P 500 / 50% T-Bills	-8.13%	-10.12%	-4.91%	-	-	-	15.82%

## Growth of \$100,000<sup>2</sup>

## Asset Allocation

Allocations are based on the asset class composition of the Portfolio and may be subject to change. There can be no assurance that the Portfolio composition has not changed since the report date shown above. Asset allocation does not assure a profit or guarantee protection during market downturns.

## Benefits

3D Global ETF Portfolios may offer significant diversification benefits, lower investment costs, greater tax efficiency and simplicity for investors seeking a professionally managed asset allocation solution.

## About 3D/L Capital Management

3D/L Capital Management, LLC is an independent investment manager headquartered in Hartford, Connecticut, that offers a comprehensive series of Global Portfolios to retirement plans and individuals through Independent Advisors, Broker/Dealers, Custodians and Platforms.

These solutions include separately managed accounts, a proprietary Turnkey Asset Management Program (3D/LMAP), Bundled 401(k) Plans, Collective Investment Trusts and DCIO and Sub-Advisory services.

## Annual Returns<sup>1</sup>

	Targeted Outcome (Net)	Targeted Outcome (Gross)	50% S&P 500 / 50% T-Bills
2022	-12.05	-11.34	-10.12
2021	11.49	13.03	13.73
2020	8.67	8.71	7.39

Net Composite Returns shown above represent the composite return of actual client accounts. Actual client costs will vary based on account size and total value of household assets.

## Disclaimer

3D/L Capital Management, LLC ("3D/L") is an investment management firm registered with the Securities and Exchange Commission, and for GIPS includes the predecessor firm 3D Asset Management which became 3D/L in December 2021. Registration with the SEC does not imply any level of expertise or training.

<sup>1</sup>**Performance** 3D/L Capital Management, LLC claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. 3D/L Capital Management, LLC has been independently verified for the periods Jul 1, 2006 - Dec 31, 2021. The 3D Targeted Outcome Composite includes all discretionary accounts that are managed to the 3D Targeted Outcome Portfolio Strategy which uses exchange-traded funds (ETFs) and/or mutual funds to target 100% equity exposure. Net Composite Returns shown above represent the composite return of actual client accounts. Actual client costs will vary based on account size and total value of household assets. Performance data shown represents past performance.

<sup>2</sup>**Growth of \$100,000** shown in the chart represents the cumulative total return of the 3D Portfolio composite since inception, both gross and net of fees. Investment return and principal value of an investment with 3D/L Portfolios will fluctuate so that an investor's investment when redeemed may be worth more or less than their original cost. As with any investment strategy, there is a potential for profit as well as the possibility of loss.

<sup>3</sup>**Portfolio Characteristics** may change over time. Average Fund Expense is the weighted average fund expense ratio based on the portfolio allocation and ETF holdings. Number of Securities is the sum total of securities held within each ETF. Portfolio Yield is the sum of net dividend per share amounts that have gone ex-dividend over the prior 12 months, divided by the current stock price. The yield is helpful in estimating the amount of income that can be expected to be generated from a Portfolio. Standard Deviation is a measure of the portfolio's volatility based on the dispersion of historical monthly returns from the mean over a five year period. A higher standard deviation indicates higher volatility of returns. Sharpe Ratio is a measure of risk-adjusted performance that indicates whether excess return was generated by portfolio management decisions or by taking on additional risk. The risk-free rate assumed for this calculation is based on annualized returns of 90-Day U.S. Treasury Bills. A higher Sharpe Ratio indicates a higher risk-adjusted return and is generally favorable.

<sup>4</sup>**Portfolio Holdings** information is as of June 30, 2022. There is no assurance that the specific securities listed will remain in the Portfolio. Asset allocation and portfolio holdings may differ from the model among accounts in the composite. 3D/L employs a diversification strategy using index-based exchange-traded funds ("ETFs") to represent specific asset classes in the Portfolio and should not be considered a recommendation to buy or sell a particular ETF security. As with all investments, ETFs have risks. For more detailed information on the ETFs used in 3D/L Portfolios investors may request a prospectus by contacting their advisor.

Performance is being shown for illustration purposes only and should not be relied upon. No representation or assurance is made that any investor will or is likely to achieve results comparable to those shown above or will make any profit or will be able to avoid incurring substantial losses. Past performance is not indicative, or a guarantee, of future results.
